

Table with 100 columns and 100 rows of numerical data. The table is organized into two main sections: '上段 浸水深(m)' (Upper Section: Immersion Depth in m) and '下段 [地盤高(T.P.m)]' (Lower Section: [Ground Level] in T.P.m). Each cell contains a numerical value representing depth or elevation at a specific grid point.

凡例

上段 浸水深(m)

下段 [地盤高(T.P.m)]
