

Table with 100 columns and 100 rows of numerical data. The table is divided into two main sections: '上段: 浸水深(m)' (Upper section: Immersion depth in meters) and '下段: [地盤高(T.P.m)]' (Lower section: [Ground level (T.P.m)]). The data values range from 0 to 100, with some cells containing specific values like 2.11 and 12.61. The table is used for engineering or construction purposes, likely related to water level and ground level measurements.
