

Table with 100 columns and 100 rows of numerical data. The table is organized into two main sections: '上段: 浸水段(m)' (Upper section: Water-saturated section in meters) and '下段: [地盤高(T.P.m)]' (Lower section: [Ground level (T.P.m)]). The data consists of a grid of numbers, likely representing elevation or depth measurements across a site.

凡例  
上段:  
浸水段(m)

2.11  
[12.61]

下段:  
[地盤高(T.P.m)]
