

Table with 100 columns and 100 rows of numerical data. The table is organized into a grid with a header row and a header column. The header row contains numbers 1 through 100. The header column contains numbers 1 through 100. The main body of the table contains numerical values, likely representing data points or coordinates. The table is divided into two main sections: '上段: 浸水深(m)' (Upper section: Water depth in meters) and '下段: [地盤高(T.P.m)]' (Lower section: [Ground level (T.P.m)]). The data is presented in a dense, repetitive pattern across the grid.
