

Topographic map grid showing elevation data (T.P.M) and contour lines. The grid covers a large area with numerical values representing elevation in meters. The map includes labels for '上段' (Upper Section) and '下段' (Lower Section) with corresponding '浸水深(m)' (Water Depth) and '地盤高(T.P.M)' (Ground Elevation) indicators. The grid is composed of small squares, each containing a numerical value representing the elevation at that specific point.
