上段: 浸水深(m)

2.11 [12.61]

下段: [地盤高(T.P.M)]

Large grid of data points for water depth and ground level, organized in a 20x20 grid of 5x5 sub-grids. Each cell contains numerical values for '浸水深(m)' and '地盤高(T.P.M)'. The grid covers a range of values from approximately 1.8 to 2.1 for water depth and 1.8 to 2.1 for ground level.
