

Table with 100 columns and 100 rows of numerical data. The table is organized into two main sections: '上段: 浸水段(m)' (Upper section: Water-saturated section (m)) and '下段: [地盤高(T.P.M)]' (Lower section: [Ground level (T.P.M)]). The data consists of a grid of numbers, likely representing elevation or depth measurements at various points.

凡例
上段:
浸水段(m)
2.11
[2.61]
下段:
[地盤高(T.P.M)]
