

Table with 100 columns and 100 rows of numerical data. The table is organized into two main sections: '上段: 浸水(m)' (Upper section: Water immersion in meters) and '下段: [地盤高(T.P.M)]' (Lower section: [Ground level (T.P.M)]). The data consists of a grid of numbers, likely representing elevation or depth measurements across a site.

凡例  
上段:  
浸水(m)  
2.11  
[12.61]  
下段:  
[地盤高(T.P.M)]
