

Table with 100 columns and 100 rows of numerical data. The table is organized into a grid with a header row and a header column. The data values are small integers, likely representing depth or elevation measurements. The table is divided into two main sections: '上段: 浸水深(m)' (Upper section: Water depth in meters) and '下段: [地盤高(T.P.m)]' (Lower section: [Ground level (T.P.m)]). The data is presented in a dense, repetitive pattern across the grid.

凡例  
上段:  
浸水深(m)  
2.11  
[12.61]  
下段:  
[地盤高(T.P.m)]
