

Table with multiple columns and rows of numerical data, representing various measurements across a grid. The table includes a header section on the right with the title '凡例' (Legend) and two sub-sections: '上段: 漫水深(m)' (Upper segment: Water depth in m) and '下段: [地盤高(T.P.m)]' (Lower segment: [Ground level (T.P.m)]). The data is organized into a grid with values ranging from 0.00 to 100.00. At the bottom of the grid, there are numerical markers: 25, 0, 25, 50, 75, 100 m, indicating distances or coordinates.

凡例
