

Large grid of numerical data points, likely representing a topographic map or elevation data. The grid is composed of many small cells, each containing a number. The numbers vary in range, with some cells containing values like 1.19, 1.20, 1.21, etc., and others containing values like 4.4, 4.5, 4.6, etc. The grid is organized into a regular pattern of rows and columns.
