[地盘高(T.P.)]

The table contains a grid of data points arranged in rows and columns. A prominent red diagonal line runs from the top-left corner towards the bottom-right. A blue line, resembling a path or a specific data series, is overlaid on the grid, following a similar but slightly more irregular diagonal path. The data points are numerical values, likely representing terrain elevation or water depth, as indicated by the '凡例' (Legend) in the top right corner.
