

A large grid of numerical data, likely representing elevation or depth measurements for the road layout. The grid is organized into columns and rows, with some cells containing sub-indices (e.g., [29.7], [29.8]). The data is organized into sections labeled '上段' (Upper Section) and '下段' (Lower Section) with a '12.11' marker. A vertical column on the right side is labeled '凡例' (Legend) and '上段: 漫水深(m)' (Upper Section: Flood Depth (m)). At the bottom, there are numerical markers: 25, 0, 25, 50, 75, 100 m.

凡例
上段:
漫水深(m)
12.11
下段:
[地盤高(T.P.m)]
